Commissioner Gene Kaplan called the meeting to order at 7:30 pm.

On motion of Sue Goldman, seconded by Larry Baily, the minutes of September 11, 2019 were unanimously approved.

The updated financial report showed an improvement in recent revenue and rounds totals. Both were slightly higher in comparison to this time last year. The past month of good weather has increased play and brought up these figures.

Jonathan Price and his staff have continued to work hard on course maintenance. The greens were aerated and the fairways last top dressing for the season will be done in November. The drainage program will begin as scheduled on October 21, 2019.

Robby Mistretta reported that there has been increased interest in the course and that he has already given tours to many potential members. The tour requests were a direct result of internet activity leading to our website. Robby updated the commission on the hardware and software cart issues that have been experienced all season. All the affected monitors were swapped out for new ones and are now working properly.

In the discussion of credits and refunds being requested by members due to injury, the commission decided that each case would be individually reviewed and decided upon.

Players are currently not permitted to bring insulated lunch boxes/coolers with them in the carts. The commission decided that unless there is a medical condition/reason and a player needs to transport their own temperature-controlled medication, food or beverage, this rule will be strictly enforced.

2020 Golf Membership applications were updated with the new membership rates. Non-resident applications will be mailed on October 21. Resident applications are scheduled to be mailed out in December.

The meeting adjourned at 9:45 pm.

Respectfully submitted,
